## Bring your walls to life

We present to you the new 2016 WallArt catalogue including our new models Sands, Tetris, Flows and Pebbles!

WallArt brings your walls to life with her modern and eco friendly 3d wall panels made out of the fibrous residue of sugarcane. This fibres of crushed sugarcane stalks, remaining after raw sugar is extracted from the juice of the sugarcane by shredding it, is now the raw material, called bagasse, that forms the base of this easily installed eco friendly product. The raw material used for our 3d wall panel is 100% recycled, compostable and is therefore 100% biodegradable.

In 2009 in the United States chosen by interior designers as one of the best and most innovative eco friendly home decor product of the year. The WallArt 3d wall panels all are made out of renewable sources which are biodegradable and therefore contribute to sustainability. The WallArt 3d wall panels are designed that when put together they form a pattern. After installing them they can be painted in every colour which fits the interior of your house or a new to be created style.

WallArt introduced their 3d wall panels in Early 2010. They've been the first entering the market with this eco friendly home decor and interior product. At this moment there are 20 different models of the WallArt 3d wall panel available. For more information about them see our designs here. The WallArt 3d wall panels give an extra dimension to your walls and they fit in almost every room of the house. The living room, the bedroom: WallArt 3d wall panels bring your walls to life!

# Ecoproduct

The raw material used for the production of the WallArt 3d wall panels is the fibrous residue remaining after sugarcane stalks are crushed to extract their juice. Therefore we can claim that this fibrous residue used as the raw material is 100% recycled.

Bagasse, as a residue of sugarcane, is one of the world's most renewable sources because sugarcane can be harvested up to 3 times a year. The total harvest worldwide is more than 1.2 billion metric tons yearly. 3 ton of sugarcane equals 1 ton of bagasse.

The raw material of the WallArt 3d wall panels, bagasse, is also compostable and therefore 100% biodegradable at the end of its life cycle. By re-using the waste of sugarcane production instead of burning it we can say it is a real eco-friendly product!

## Gaps

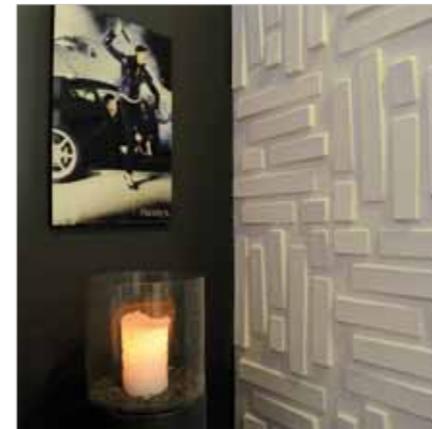

Good design is obvious. Great design is transparent.

*Joe Sparano*

## Bricks

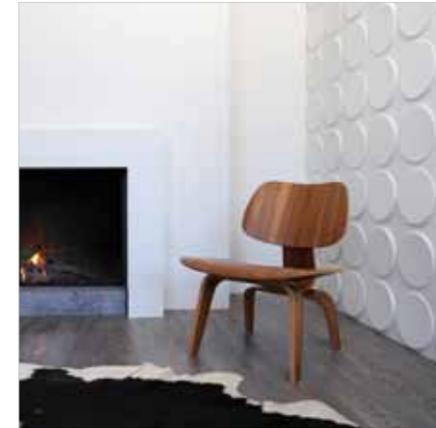

Design is where science and art break even.

*Robin Mathew*

## Ellipses

A designer is a planner with an aesthetic sense.

*Bruno Munari*

# Waves

Bad design is smoke, while good design is a mirror.

*Juan-Carlos Fernández*

## Vaults

Good design is a lot like clear thinking made visual.

*Edward Tufte*

## Sweeps

Design is the conscious effort to impose a meaningful order.

*Victor Papanek*

## Cubes

Design is as much an act of spacing as an act of marking.

*Ellen Lupton*

## Pitches

A design isn't finished until somebody is using it.

*Brenda Laurel*

## Squares

Many things difficult to design prove easy to perform.

*Samuel Johnson*

[www.mywallart.com](http://www.mywallart.com)

## Splashes

The only important thing about design is how it relates to people.

*Victor Papanek*

www.mywallart.com

## Craters

Designing a product is designing a relationship.

*Steve Rogers*

## Kites

Good design goes to heaven; bad design goes everywhere.

*Mieke Gerritzen*

## Pebbles

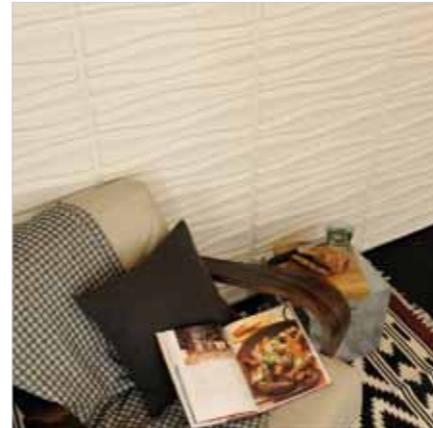

Design should never say, "Look at me." It should always say, "Look at this."

*David Craib*

www.mywallart.com

## Flows

Content precedes design. Design in the absence of content is not design, it's decoration.

*Jeffrey Zeldman*

## Sands

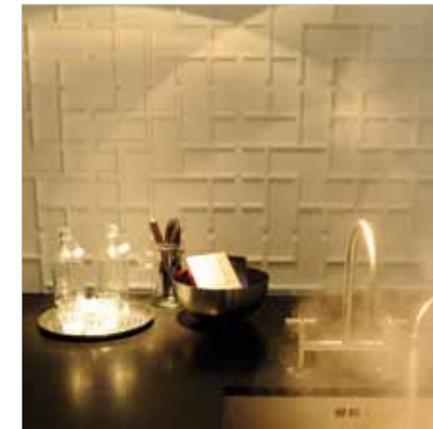

Design creates culture. Culture shapes values. Values determine the future.

*Robert L. Peters*

# Tetris

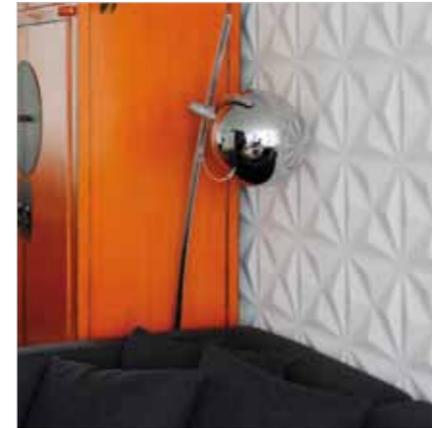

Create your own visual style... let it be unique for yourself and yet identifiable for others.

*Orson Welles*

## Cullinans

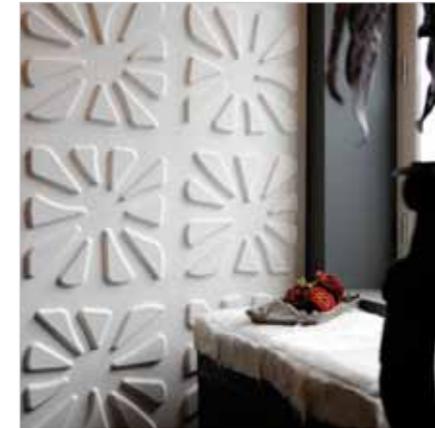

Everything is designed. Few things are designed well.

*Brian Reed*

## Caryotas

Design is creativity with strategy.

*Rob Curedale*

## Saiph

Design is about making things good (and then better) and right (and fantastic) for the people who use and encounter them.

*Matt Beale*

## Dundees

If design isn't profitable, then it's art.

*Henrik Fiskar*
